

## DAY PLANS TO USE CLOSED SALOONS FOR SALE OF FOOD

Old Refrigerators Could Be  
Utilized to Store Stocks—  
Profiteering Must Stop.

Saloons put out of business by the  
dry law may be organized into a food

distributing system unless dealers show more enthusiasm in getting cheap food to the people, Dr. Jonas C. Day, Commissioner of Markets, said to-day.

Reports of apathy on the part of some dealers handling Army chickens, of which only 70,000 pounds were sold last week out of the 500,000 pounds allotted by the Government, and the dumping of large consignments of inferior poultry on the market, convinced Dr. Day, he said, that some drastic step must be taken to halt profiteering.

"The saloons are equipped with refrigerators and can be turned into food distributing stations without any trouble," he said. "A man can pass his money over the same old

familiar bar, but will get food for his family instead of what he used to get there.

"In Kentucky and other distilling districts the distilleries are being turned into food manufacturing plants. Why not use the saloons, with their refrigerating equipment, to distribute the products of the distilleries and other foods?"

"All we need is some expert handlers and we can get all those we need in competition with dealers and still exact less than the five cents a pound margin of profit the dealers are being allowed on the army chickens. They complain that five cents is not enough. But it can be done for less and will be done if the needs of the people demand it."

Dr. Day said that several exporters

have approached him with a view to effecting home distribution of products they have been sending abroad. Their action was the result of resolutions passed by the Central Federated Union, calling on Congress to pass high export tariff laws on foodstuffs.

"They say that such laws would not have the desired effect," Dr. Day said. "Large organizations are handling the foodstuffs for export. To turn it back into home consumption under existing distribution methods, means it must pass back through those channels and then through the process now in operation for home distribution."

"If the Central Federated Union will signify its willingness to buy these goods through certain emergency distribution organizations, the manufacturers and exporters will be glad to turn over their merchandise to such organizations instead of delivering them at steamship docks."

"There is plenty of food, but the distribution system is bad and permits hoarding and other evils. If those suffering from the system will adopt some co-operative plan they can get plenty of food at a price dictated absolutely by supply and demand. They can accomplish this without going to Congress or any other legislative body."

Army food sales in the public schools Saturday were \$44,000. Saturday is usually a light day for school sales and the fact that they reached a high level is attributed by Dr. Day in part to the publication of the detailed list in The Evening World, so consumers may buy with a minimum of inconvenience.

## 'BIG SIX' WILL MEET EMPLOYERS BEFORE VOTING ON STRIKE

Friendly Gathering Predicted  
for Conference—Pay Raise  
of \$6 Is Rejected.

Charles Hawkes, Secretary of the Employing Commercial Printers' organization of New York, to-day said that every effort was being made for a friendly meeting between the officers of "Big Six," the compositors' union, and other representatives of the printing trades to avert the possibility of a strike of job printers and others, outside of newspaper employees, who already have a 44-hour week. "Big Six" at a meeting yesterday approved the decision of its officers rejecting the offer of \$6 a week increase for book and job printers and of arbitration of the demand for a 44-hour week issue.

It was generally agreed that the meeting Wednesday would show whether the printing trades unions were in sympathy with the international organizations rather than with the local organizations which have

been suspended for making an independent fight for the immediate adoption of the forty-four hour week.

While the printers were in session the seceding pressmen were holding a meeting in Washington Irving High School Hall. They voted to suspend work on Wednesday afternoon to attend a mass meeting to consider the situation created by the refusal of the employers to deal with none but unions affiliated with the American Federation of Labor. At this meeting, according to Bernard Nolan, who presided yesterday, the seceding pressmen will decide whether to strike or allow a lockout.

Leon H. Rouse, President and leader of the radical element in "Big Six," was the only speaker at the printers' meeting. In the course of his talk he denounced Mardian J. Scott, International President of the Typographical Union, as a liar, declared that he would ask the union to meet any attempt to force arbitration by injunction proceedings, and declared the seceding pressmen's union to be the only bona fide union of pressmen in New York.

The strike threat came before the meeting on the report of Mr. Rouse, as Chairman of the Executive Committee.

With the report a resolution was offered reading approval of the conference committee. The resolution was adopted and then this resolution was offered and later adopted:

"Resolved: That the officers of Typographical Union No. 5 be instructed to notify the employing printers of the above action and instruct the conference committee to seek further negotiations; and be it further

Resolved: That a adjourned meeting of the union be held on Sept. 25 and the officers be instructed to secure the largest hall possible for the occasion and to notify the members that a strike vote may be taken."

Speaking to this resolution, Mr. Rouse said he had been characterized as a Bolshevik and a radical. Officers of the International Union

said that Rouse's "revelations" were nothing more than charges that there had been a corrupt alliance between officials of the international union in arranging for a 44-hour week to take effect in October, 1921, instead of next month and they had no fear of a clear exposition of all their dealings on that subject.

Mardian J. Scott's only comment was: "Some leaders seem to have been afflicted by shell shock in these troubled days."

## Honest Advertising.

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public and from which he honestly expects to receive his reward.

## Children Cry For Fletcher's CASTORIA

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for infants and children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

## How Signs Of Old Age Creep Into Your System When The Iron In Your Blood Runs Low

For Want of Iron, You May Be Old At Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, With Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy

### IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue and Aids in Giving Renewed Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-Down People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life simply because they have allowed worry, overwork, nervous strain, dissipation and occupational poisons to sap the iron from their blood and thereby destroy its power to change food into living tissue, muscle and brain. You will find plenty of people at 40 who are broken in health and steadily going downward to physical and mental decay while others at 50 are strong, active, alert and seemingly growing younger every year. One class withers and dies like leaves in autumn, while the other, by keeping up a strong power of resistance against disease may pass the three score and ten mark with surprising health, strength and vigor.

But you cannot expect to look and feel young and vigorous unless you have plenty of iron in your blood, and physicians explain below why they prescribe organic iron—Nuxated Iron—to supply the iron deficiency in the weak, nervous and run-down as to build them up into stronger, healthier men and women.

"Many a man and woman who ought not to be young in feeling is losing the old time vim and energy that makes life worth living simply because their blood

is starved for want of iron," said Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (London, Sept. 1).

"Thousands are aging and breaking down by feeding their blood with ironless food. Iron is the blood—like fastened its grip on them and is sapping their strength, vitality and energy, but in my opinion you can't make strong, healthy, successful men and women by feeding them on metallic iron. The old remedy of iron pills is a mistake. It is a mistake to transform their iron into non-nutritive iron—before they are ready to be taken up and assimilated by the human system. I sternly advise readers

to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to a physician, purchase Nuxated Iron in its original package and see that the particular iron Nuxated Iron appears on the package. If you have taken preparations such as Nuxated Iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron.

Dr. George H. Baker, former Physician and Surgeon, Massachusetts Memorial Hospital of New Jersey, says: "From a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physical man can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results."

"MANUFACTURER'S NOTE: Nuxated Iron, which has been used by Dr. Sullivan and other physicians with such surprising results, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the other 'secret' iron products, it is easily assimilated and does not irritate the stomach. The manufacturers guarantee successful and speedy results to every purchaser or they will refund your money. It is dispensed by all good druggists.—Adv.

## SHIPYARD MEN WORKING HALF SATURDAY LOSE JOBS

More Than Five Hundred in Staten Island Say They Were Locked Out.

More than 500 employees of the two yards of the Staten Island Shipbuilding Corporation at Mariners Harbor and Port Richmond, S. I., forfeited their jobs to-day by failing to comply with the requirements of the Federal Government in working 44 hours a week. On Saturday morning notices were posted in both yards notifying employees that unless they worked a full day they would lose their positions. Sixty per cent of the employees at the Mariners Harbor Yard and 75 per cent at the Port Richmond Yard disregarded the notice.

The men said to-day that when they reported back to work that they were locked out, but A. J. Hinton, Secretary of the company, declared that the men were not locked out, as they had been warned of the Government rule requiring them to work forty-eight hours a week, but had failed to obey instructions. The only way the men could come back, he said, would be to agree to work to forty-eight hour week.

## JERSEY TROLLEY KILLS TWO.

Motorman Says Men Were Lying on the Tracks.

George P. Alexander and Albert Loren, both of Richfield, N. J., were killed by a trolley car of the New Jersey Public Service Railway Company when a dense early morning fog obscured them from the view of the motorman. The accident happened on a private right of way owned by the railway company on Jersey Avenue near 12th Street, West New York.

Max Kraus of North Bergen, the motorman, said the two men were lying on the tracks when struck. Kraus and Conductor James Tully of Jersey City are held on charges of manslaughter.

## SENDS PROTEST FOR NEGRO.

Shillady Wants Him Represented at Wilson Conference.

The failure of President Wilson to appoint a negro to the committee of twenty-two which will plan new industrial relations, is the basis of an appeal to the President made to-day by John E. Shillady, Secretary of the National Association for the Advancement of colored people. He asks for seven-eighths per cent representation.

Permanent Base for Pacific Fleet. WASHINGTON, Sept. 22.—Pact Sound and San Francisco Harbor will be the permanent bases for the battleships of the Pacific Fleet, Secretary Daniels stated to-day upon his return to Washington. Smaller ships will be distributed all along the coast.

## FOR BURNING ECZEMA

Apply Zemo, the Clean, Antiseptic Liquid—Easy to Use—Does Not Stain.

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops irritation and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

In skin troubles, ordinary soaps are irritating and liable to aggravate the condition. Use Zemo soap. It is antiseptic, soothing, and hastens the process of healing.

The E. W. Rose Co., Cleveland, O.

## GET RID OF CONSTIPATION THE NATURAL WAY

Nature's way is the gentle way. If you are suffering from constipation, avoid strong cathartics, nauseating oils, calomel, strong pills and powders. Boal's Laxative Fruit Rolls are made with real fruits. They are as delicious to taste as though they were made with the one purpose of producing a delightful fruit confection. They are efficacious, yet gentle. Children tease for a taste. For sale at all drug stores. Package of 6 rolls, 15c. Write for free sample. Boal's Rolls, 216 West 14th St., New York.—Adv.

HIS popularity is far-reaching, and he's making friends on every hand.

He's a noble Turkish Cigarette with an English noble's name—but his price proves he's a democrat for anybody's money. That's a fact—he brings five more and fifteen better Turkish cigarettes than the money ever bought before!

You can meet the Duke of York 15 times for 18 cents—and you'll say a good word for each cigarette.

18 cents for 15

Sure—Your Dealer Has Them!
